## ELITE™ SERIES Designed to exceed expectations

Providing the highest level of safety, security and convenience for specific applications and for customers that want the very best.

## DC MOTOR BELT DRIVE with INTEGRATED EVERCHARGE™ BATTERY BACKUP - 3850

### The smoothest, quietest, most reliable opener you can buy.

Now when the power goes out, your garage door opener still goes up. The stylish 3850 has a unique feature that no other system can offer. It's the only opener with the patented EverCharge™ battery backup system built right in to power the opener and all of its safety features when you need it most.

Always charged and ready, it provides the highest level of safety and convenience imaginable. Plus, it's possibly the quietest system ever created. The powerful 12V DC motor features a belt drive system that provides ultra-quiet operation, along with smooth start and smooth stop to reduce the noise of the garage door as it opens and closes. Perfect for homes with a room above the garage.

The in-vehicle universal remote control.  
See your automobile dealer for availability.

### The Difference ...

Chamberlain® offers the only opener that features an integrated battery backup system to reliably lift and close the garage door even when the power goes out.

- Ultra-quiet DC motor with belt drive system
- Our very best accessory package
- Lifetime motor and belt warranty

## For Safety, Security and Convenience

---

### Brighter Light...Hands-Free

Motion-detecting control panel turns on lights automatically. 200 watts of light with adjustable 1 1/2 to 4 1/2 minute light delay. Hinged light covers make bulb changes easy.

### Rolling Code Technology

With rolling code technology, you are assured of a new code with every use. Every time you push the button, the code automatically rolls over to any one of over 100-billion new codes, never to be repeated. Operates up to 3 garage doors.

## Safety Features

---

### Equipped with PosiLock®

Once your garage door goes down, it's securely locked with PosiLock®, a patented Chamberlain® feature.

### The Protector System®\*

Projects an invisible light beam across garage door opening; if interrupted while the door is closing the opener reverses before making contact. If beam is obstructed, door will not close.

## Additional Features

---

### Exclusive! The Smart Garage Door Opener®

Lets you electronically program security codes from the motion-detecting control panel or the powerhead.

### Quick-Connect™ Terminals

Push-in wiring installation.

### 6-Foot Power Cord

Makes connecting to a power source easier than ever. Ideal for vaulted ceilings.

### Push Button Limit Settings/ Automatic Force Sensing

Auto-force feature constantly monitors garage door system and adjusts to temperature fluctuations, floor height and door track movement.
