ESTATE SERIES Designed to exceed expectations

Providing the highest level of safety, security and convenience for specific applications and for customers that want the very best.

3/4 HP CARRIAGE HOUSE DOOR OPENER™ - 3595 Ultra-heavy-duty performance

Created exclusively for heavy carriage house doors and custom doors, the 3595 is engineered for maximum lifting capacity and super-quiet operation. Made tough with a commercial I-beam rail system and chassis support bracket, it also offers a 2-speed dual sprocket customizable to door requirements. The system features our largest and most powerful motor. Plus it includes our patented Motor Vibration Isolation System (MVIS®) and chain spreader for reduced noise and smooth-running performance year after year.

The in-vehicle universal remote control.
See your automobile dealer for availability.

The 3595 Difference...

- Specially designed for custom and solid wood doors
- Largest, most powerful motor/heavy-duty rail system
- Improved performance in cold weather
- Super-quiet operation
- Premium accessory package
