Tech Series

H-Tech

R-16 insulated aluminum doors

The H-Tech is a 1¾ inch thick insulated aluminum door with an R-16 thermal resistance rating. It is available in ten colors and in three styles: raised classic panels, flush or with 2 decorative grooves. All carry a limited **Lifetime Warranty**.

▼ H-Tech, 8' x 7', Ivory, Classic raised panels.

Garaga overhead doors have set the standard for quality in the industry.

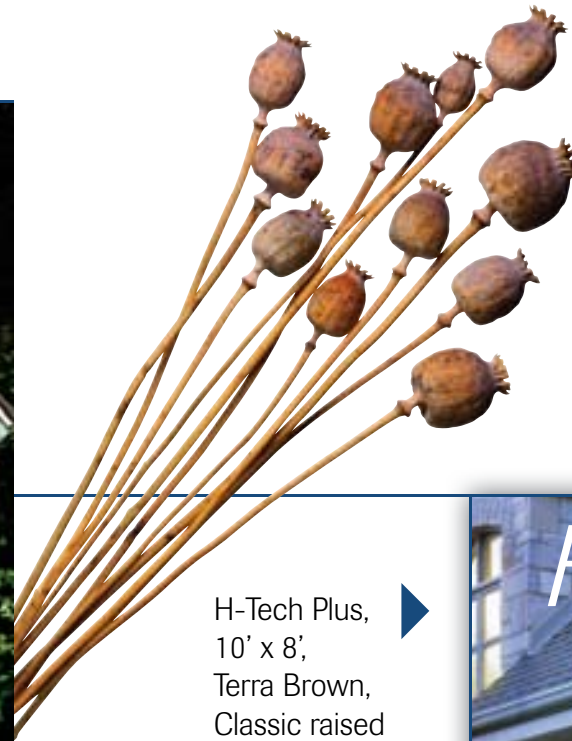

Choice! Color!

The value of a home depends to a great extent on its charm and the attention the owners pay to even the slightest architectural details. Today, more than ever, the garage door is both a functional and a decorative element that gives a property character. That's why the Garaga Tech Series offers a choice of colors and styles that have the flexibility to blend harmoniously with today's homes. They adapt to enhance the aesthetic qualities of your environment.

H-Tech Plus

R-18 insulated aluminum doors

A 2" thick insulated aluminum door, the H-Tech Plus has an R-18 thermal resistance rating. It is available in ten colors and in three styles: raised classic panels, flush or with 2 decorative grooves. All carry a limited **Lifetime Warranty**.

▶ H-Tech Plus, 10' x 8', Terra Brown, Classic raised panels with Standard windows.

▲ Top Tech, 16' x 7', Tex White, grooved panels.

A choice you'll never regret!

Garaga overhead doors have set the standard for quality in the industry. They are manufactured using the most advanced technology. Choosing Garaga insulated panels installed with Dura+ hardware, ThermaBlok™ perimeter weatherstripping, and a CarGO™ garage door opener will provide you with a system that is truly 100% Garaga. When combined with professional installation performed by a Garaga specialist, a system that is 100% Garaga allows our doors to operate with maximum efficiency for many, many years. We do everything to ensure that you never regret buying a Garaga!

Top Tech

R-16 insulated steel doors

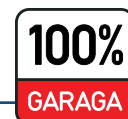

A 1¾" thick insulated steel door with a light textured finish, the Top Tech gives a very stylish look to your garage. It comes in white and in two styles: raised classic panels or with 2 decorative grooves. The Top Tech carries a limited **Lifetime Warranty**.

A customized beauty

Make your beautiful Garaga a masterpiece, chosen to fit your surroundings.

Put a little of yourself in your garage door. Choose decorative accessories that set you apart and add a touch of class to your home.

Each 100% Garaga accessory, designed and crafted according to our strict quality requirements, assures you of flawless compatibility and unmatched durability.

CarGO™ Door Openers: Smooth, Quiet and Reliable

The Garaga satisfaction promise – available in door automation systems with the CarGO™ series. European-engineered and built to surpass the highest garage door system standards in the industry, the soft start/soft stop CarGO™ system guarantees years of smooth and trouble-free operation.

CarGO 700_e

CarGO 500_e

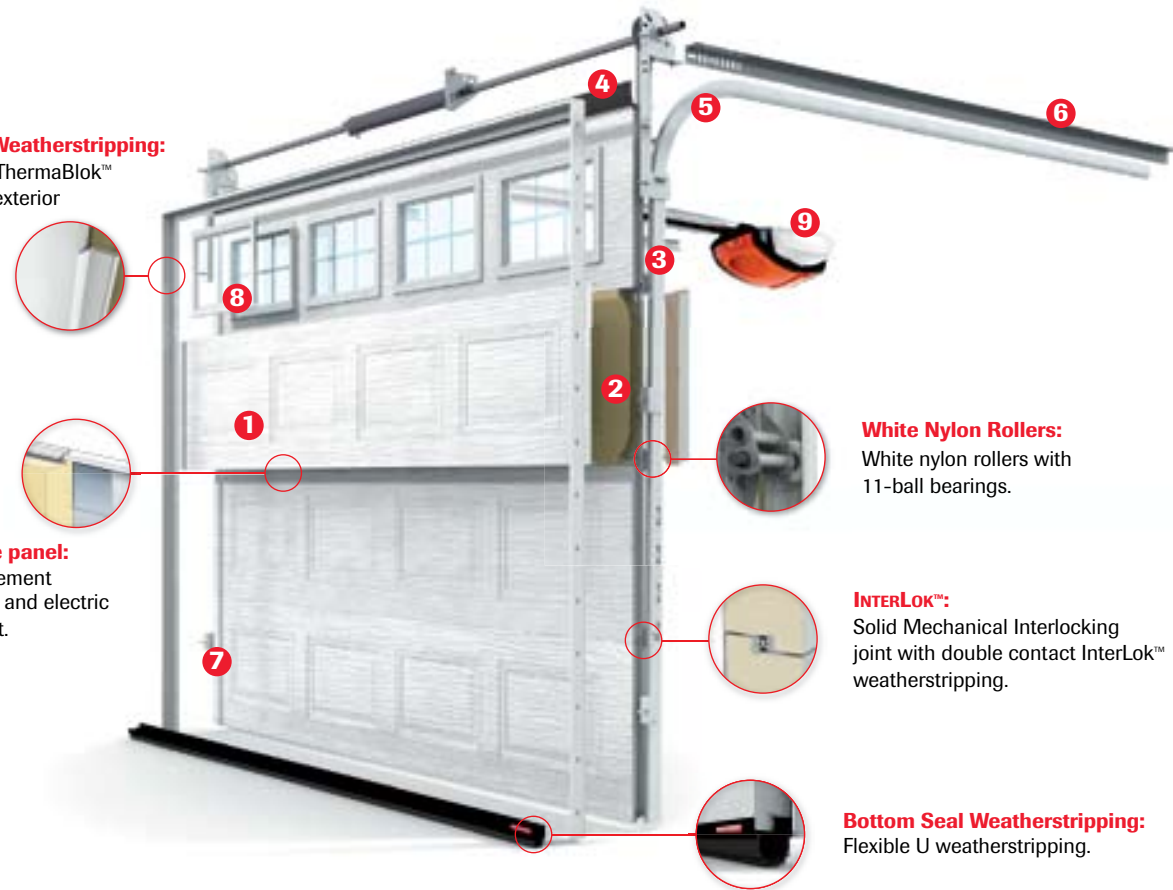

The garage door is both a functional and a decorative element that gives a property character.

- 9 CarGO 500e or CarGO 700e; smooth, quiet & reliable garage door openers

THE BEAUTY OF QUALITY

ColdStop SYSTEM
Garaga door systems help you save energy and money because the numerous thermal breaks keep the heat in and the cold out.

EnergyAce
Garaga's outstanding energy conservation leaves the others out in the cold.

LongLife COMPONENTS
Heavy-duty corrosion-resistant steel or aluminum doors and Dura+™ hardware makes it the longest-lasting garage door system on the market.

RockSolid CONSTRUCTION
Built to withstand extreme Canadian weather and rough handling; this is the world's most rugged garage door system.

AirBarrier SYSTEM
Garaga door systems have the lowest average air infiltration ratings in the industry.

TrueFit DESIGN
Garaga door systems are versatile for your renovation projects and special dimensions.
